

GOD CAN

By Donna M Beauvais

If you're facing a mighty big giant God can take him out of the way
Or if you're climbing up a mountain of trials He'll move them aside if you pray
He can part the waters surrounding you and place your feet on dry land
Whatever it is you think you can't do
God can

God can part your troubled waters
He can mend your broken heart
God can ease your heavy burdens
He'll put together whatever's apart
God can take a heart that is black with sin
And with the blood of Jesus make it over again
So whatever it is you think you can't do
God can

It wasn't the strength of little David that brought Goliath down
And it wasn't the power of Moses that split the sea and gave his people dry ground
It was God who kept the three men alive in the fire
It was part of His wonderful plan
So whatever it is you think you can't do
God can

Repeat chorus

Tag:

Whatever it is you think you can't do
God can
I know my God can
